

Creative Soul Studio

Be Kind ~ Be Soulful ~ Be Yourself

Hi, I'm Julie Davidson, founder of Creative Soul Studio. Creative Soul Studio started with a passion for creativity and a joy of learning and pursuing new crafts. The more I learned the more fascinated I became with the qualities of plant-based oils, butters, botanicals, and essential oils. I love finding new ways to incorporate the highest-quality ingredients into my products making healthy and luxury synonymous.

I make plant-based soaps, candles and body products using quality ingredients. Each and every one of my products are vegan friendly and handmade in small batches in the California Desert.
